CARRIED

The roll was called to conduct the following Hearing under Section 28.1(5) of the Conservation Authorities Act.

The Chair gave his opening remarks and reviewed the guidelines and process to be followed for the hearing.

a) Hearing LPRCA – 214/19 – Leggat

L. Minshall, Manager of Watershed Services introduced Mel and Paula Leggat, their agent, Nathan Kolomaya, and contractor, Chuck Thompson, and then presented the staff report. This application was received October 24, 2019 to construct a new one storey seasonal dwelling. The area requested for the construction is in the Lake Erie shoreline erosion hazard and is contrary to the LPRCA policies for administration of O. Reg. 178.06. LPRCA granted a permit in May 2019 to raise the cottage onto a new foundation and remove and replace the roof. This summer, a new foundation had been constructed and most of the previous dwelling had been demolished which voided the LPRCA permit.

Mr. Kolomaya spoke on behalf of the applicants noting that the applicants had every
intent to comply with the permit and make repairs but as progress proceeded the applicants were advised by the Building Department that the cottage was unrepairable and it would be best to tear down and rebuild. The applicant did not notify LPRCA of the change in plans. Once informed, remedial recommendations were suggested by LPRCA but determined by the contractor to be unsuitable.

Staff and the proponent responded to questions from the Board.

There were no comments from other interested parties and no further questions.

A-138/19 moved: S. Patterson seconded: J. Scholten
