At the core of all BBBS mentoring programs, we build resiliency by enabling life- changing mentoring relationships that ignite the power and potential of our mentees. BBBS mentoring programs are also grounded in intentional, purposeful relationship building with youth. We take pride in updating and developing our programs based on the needs of the individual child and the individual community.

We employ skilled and professional service delivery staff (as per our National Standards, staff are required to have a minimum of a two-year diploma in a Social Services related field) to lead screening, orientation, training, monitoring and evaluation of the volunteer mentors, children and families to ensure quality, safety and work towards goals and outcomes. These programs are offered at no cost to our families so funding is critical to help to ensure we are able to:

- Sustain long-term mentoring matches with match monitoring, on-going screening, training and goal setting.
 - Adequately screen and train volunteer mentors
- Make new mentoring matches as well as support and train to serve increased complexities and adversities
