

April 3, 2023

To; Mayor Gilvesy and Town Council
re; Backyard Burning Nuisance at 89 Rolph Street, Tillsonburg

- The Fire Department was called to this address in 2021- June or July, not by me.
- Called again in 2022, by me on this occasion
 - My home apartment faces this property, 202-99 Rolph Street and it was filled with smoke from this fire, as the photos show.
- There is weekly recycling and we have a transfer station for unwanted items, therefore, there is no need to burn anything on the property.
- All outside burning needs to be banned, the subject of what is being burned is unknown and could be harmful to people
- Smoke has no boundaries, not even from chimneys, house furnaces or fire places
- Perhaps the fire reports will answer some of the indicated items in the pamphlet. I know I learned more about the restrictions from it.

Regards,
Treva Lonsbary

*P.S. I vote 100% no fires or
smoke within the Town
Limits of Tillsonburg.
Treva Lonsbary.*
