Please provide the following information:

How will the proposed development benefit the community?

A new accessible public space where there was none before. The business also provides a unique form of affordable entertainment. It was a substantial commitment and investment to make for such an idea, in a location such as Tillsonburg.

If the proposed development is in the downtown, how will it fit in with, or improve, the existing streetscape?

We are creating something new and cool here, it should be a welcome improvement/addition to the streetscape and the town in general.

What is the proposed timeline (start date and completion date)?

Work is complete. The business is open. Nobody mentioned this program to us through the whole process.
