- **Brief Summary of Issue or Purpose of Delegation**

Summer Place and the boathouse are scheduled for demolition in 2019 due to the mold issue. We would like to propose the idea of demolishing only Summer Place and sparing the boathouse. The mold report from July of 2018 states that the concrete structure of the boathouse does not support the growth of mold. We feel that it would be in our best interest and would save the town money if they reconsider their decision in Jan 2019 to tear down the entire structure.
