

HISTORY OF THE KINSMEN OUTDOOR  
SWIMMING POOL

## Survey New Kin Pool

Initial work has been started on the new Kinsmen intermediate swimming pool to be constructed in the Memorial park, adjacent to the present pool. Contract for construction was let to the Gilvesy Construction Company, who expect to have the major cement work completed this fall, with the finishing touches to be added next spring. The pool will be ready for the 1957 swimming season. The pool will measure 26 by 36 feet, and will be two feet in depth, with a six-foot apron around the outside. In the above photo three employees of the Gilvesy Company, Julian Goossens, James Herron and Aubry Johnson make a start on the \$4,000 project. (Photo by Seldon).
