3. **PERMITS TO CONDUCT WORK**

3.1. **Permit Requirements**

Permits are generally required for all work except as may be prescribed in Schedule A.

   (a) Work Within the ROWs by the Company is subject to the authorization requirements of the Municipality as set out in **Schedule A**.

   (b) For each Permit required above, the Company shall submit to the Municipality a completed application, in a form specified by the Municipality and including the applicable fee set out in **Schedule B**.
Subject to Section 3.4, the Municipality will issue the applicable Permits within fifteen (15) days of receiving a complete application, or such other time as agreed to by the Parties having regard to the complexity of the Work covered by the application and the volume of Permit applications before the Municipality at that time.

3.2. Expiry of Permit. In the event that the Company has not commenced construction of the approved Work associated with a particular Permit within the prescribed timeframe from the issuance of the Permit, and has not sought and received an extension to the Permit from the Municipality, which extension shall not be unreasonably withheld, the Permit shall be null and void. In such circumstances, any fees paid by the Company in respect of the expired Permit shall not be refunded and the Company must obtain a new Permit for the Work.

3.3. Submission of plans. Unless otherwise agreed to by the Municipality, the Company shall, prior to undertaking any Work that requires a Municipal Consent, submit the following to the Municipal Engineer:

(a) construction plans of the proposed Work, showing the locations of the proposed and existing Equipment and other facilities, and specifying the boundaries of the area within the Municipality within which the Work is proposed to take place; and

3.4. Refusal to issue Permits. In case of conflict with any bona fide municipal purpose, including reasons of public safety and health, conflicts with existing infrastructure, proposed road construction, or the proper functioning of public services, all as identified in writing to the Company by the Municipality, the Municipality may request amendments to the plans referred to in Section 3.3 or may choose to refuse to issue a Permit.

3.5. Temporary Connections. In the case where a temporary connection is required, the Company will make it a permanent installation within 90 days within construction season or 30 days after the start of the construction season. The Company will ensure any temporary connection or Service Drop will be placed to have wires and cables cross ROWs with adequate vertical clearance and do not lie on the ground; and the Company remedy any conditions deemed unsafe by the Municipality within 10 days.

3.6. Restoration of the Company’s service during Emergencies. Notwithstanding Section 3.1, in the event of an Emergency, the Company shall be permitted, provided that the Company gives notice to the Municipality as soon as reasonably practicable, to perform such remedial Work as is reasonably necessary to restore its services without complying with Section 3.1; provided that the Company does comply with Section 3.1 within five (5) business days of completing the Work.
3.7. **Temporary changes by Municipality.** Notwithstanding any other provision in this Agreement, the Municipality reserves the right to set, adjust or change the approved schedule of Work by the Company for the purpose of coordinating or managing any major events or activities, including the restriction of any Work during those restricted time periods; provided however, that any such adjustment or change shall be conducted so as minimize interruption to the Company’s operations. The Municipality shall use its commercially reasonable efforts to provide to the Company forty-eight (48) hours advance written notice of any change to the approved schedule of Work, except that, in the case of any Emergency, the Municipality shall provide such advance notice as is reasonably possible in the circumstances.

4. **MANNER OF WORK**

4.1. **Compliance with Applicable Laws, etc.** All Work shall be conducted and completed to the satisfaction of the Municipality and in accordance with:

(a) the Applicable Laws (and, in particular, all laws and codes relating to occupational health and safety);

(b) the Municipal Guidelines;

(c) this Agreement; and

(d) the applicable Permits issued under **Section 3.1**.

4.2. **Underground Equipment.** The Company shall place those portions of the Equipment that cross beneath streets or existing buried utilities in ducts, carrier pipes or encased in concrete, or as otherwise specified by the Municipality.

4.3. **Stoppage of Work.** The Municipality may order the stoppage of the Work for any *bona fide* municipal purpose or cause relating to public health and safety or any circumstances beyond its control. In such circumstances, the Municipality shall provide the Company with a verbal order and reasons to stop the Work and the Company shall cease the Work immediately. Within two (2) business days of the verbal order, the Municipality shall provide the Company with a written stop work order with reasons. When the reasons for the Work stoppage have been resolved, the Municipality shall advise the Company immediately that it can commence the Work.

4.4. **Coordination of Work.** The Company shall use its reasonable efforts to minimize the necessity for road cuts, construction and the placement of new Equipment Within the ROW by coordinating its Work and sharing the use of support structures with other existing and new occupants of the ROWs.

4.5. **Utility co-ordination committee.** The Company shall participate in a utility co-ordination committee established by the Municipality and contribute to its equitable share of the reasonable costs of the operation and administration of the committee as approved by such
committee.

4.6. **Emergency contact personnel.** The Company and the Municipality shall provide to each other a list of 24-hour emergency contact personnel, available at all times, including contact particulars, and shall ensure that the list is kept current.

4.7. **Emergency work by Municipality.** In the event of an Emergency, the Municipality shall as soon as reasonably practicable contact the Company and, as circumstances permit, allow the Company a reasonable opportunity to remove, relocate, protect or otherwise deal with the Equipment, having regard to the nature of the Emergency. Notwithstanding the foregoing, the Municipality may take all such measures it deems necessary to address the Emergency and otherwise re-establish a safe environment, and the Company shall pay the Municipality’s Costs that are directly attributable to the Work or the presence of the Equipment in the ROWs.

4.8. **“As-built” drawings.** Where required by the Municipality, the Company shall, no later than 90 days after completion of any Work, provide the Municipal Engineer with accurate “as-built” drawings, prepared in accordance with such standards as may be required by the Municipal Engineer, sufficient to accurately establish the plan, profile and dimensions of the Equipment installed Within the ROWs. Such drawings shall only be used for the purposes of facilitating the Municipal Engineer’s conduct of planning and issuance of Work permits. The “as-constructed” drawings must be protected through reasonable measures and must not be shared beyond those who require it for the purposes described above, nor must they be used for any other purpose or combined with other information.

4.9. **Street aesthetics.** Where commercially reasonable and technically practicable, the Company will participate in joint initiatives with the Municipality, developers and other occupants of the ROWs for the purpose of improving street, landscape and community aesthetics, including installing Equipment into specially-designed units, pedestals or cabinets or, where permitted, clustering units, pedestals or cabinets together.

4.10. **Removal of graffiti.** The Company shall use its commercially reasonable efforts to clean, remove or conceal graffiti or other unauthorized markings located and visible on the Equipment in a timely manner and to the satisfaction of the Municipality. Without limiting the generality of the foregoing, the Company will remove or conceal all offensive graffiti from its Equipment within forty-eight (48) hours written notice from the Municipality and all other graffiti within five (5) business days’ written notice from the Municipality. In the event that the Company does not remove or conceal the graffiti in accordance with this section, the Municipality may take such steps as it deems reasonable and necessary to remove or conceal the graffiti and charge the Municipality’s Costs of so doing to the Company.
4.11. **Maintenance of above-ground cabinets.** The Company shall:

(a) maintain a regular maintenance program to clean, straighten, paint and repair its above-ground cabinets; and,

(b) within five (5) days of written notice from the Municipality, complete any such maintenance requested by the Municipality.

4.12. **Where Equipment is located incorrectly.** Where the location of any portion of the Equipment in a ROW is located outside a distance of one (1) metre horizontally (centre-line to centre-line) from the location approved in the Permit or as shown on the as-built drawings (as accepted by the Municipality) and, as a result, the Municipality is unable to install its facilities within the affected ROWs in the manner it expected based on the Permit or as-built drawings (the “Conflict”), the following shall apply:

(a) The Municipality will notify the Company of the Conflict, following which the Company shall, in consultation with the Municipality, attempt to resolve the Conflict.

(b) If the Company is unable to resolve the Conflict in a reasonable time commensurate with the situation and to the Municipal Engineer’s satisfaction, then the Company shall pay the Municipality’s Costs as a direct result of the Conflict including the Municipality’s costs of remedying the Conflict in such manner as the Municipality shall determine appropriate.

4.13. **Agents and Sub-contractors.** Each Party agrees to work with the other Party directly to resolve any issues arising from any the acts, omissions or performance of its agents and sub-contractors. The Company shall ensure that all of its agents and sub-contractors have proper identification, visible at the site on which the Work is being conducted, displaying the name of the person or company for which they work.

5. **REMEDIAL WORK**

5.1. **General.** Following the completion of any Work, the Company shall leave the ROW in a neat, clean, and safe condition and free from nuisance, all to the satisfaction of the Municipality. Subject to Section 5.5, where the Company is required to break or otherwise disturb the surface of a ROW to perform its Work, it shall repair and restore the surface of the ROW to substantially the same condition it was in before the Work was undertaken, all in accordance with the Municipal Guidelines and to the satisfaction of the Municipal Engineer.

5.2. **Permanent Road Restoration.** If the Company has excavated, broken up or otherwise disturbed the surface of a ROW, the requirements for the Company completing the road restoration work will vary depending on if and when pavement has been recently repaved or overlaid, as follows:
(a) if pavement has been repaved or overlaid during the five-year period immediately prior to the date of issuance of the Permit, then the Municipality may require that the Company grind and overlay the full lane width of pavement in the ROW;

(b) if pavement has been repaved or overlaid during the two-year period immediately prior to the date of issuance, then the Municipality may require that the Company grind and overlay the full width of the pavement in the ROW;

(c) in either subsections (a) or (b) above, if Third Parties, including the Municipality as a provider of services to the public, has excavated, broken up or otherwise disturbed the pavement to be ground and overlaid, the costs of that grind and overlay will be apportioned between the Company and the Third Parties on the basis of the area of their respective cuts;

(d) the Municipality may not require grind and overlay under subsections (a) or (b) above for road restoration work involving:

i. service connections to buildings where no other reasonable means of providing service exists and the Company had no requirement to provide service before the new pavement was placed;

ii. Emergencies; and

iii. other situations deemed by the Municipal Engineer to be in the public interest; and

(e) if the Municipality has required the Company to grind and overlay under either subsections (a) or (b) above, the Company will have no obligation to pay Pavement Degradation fees under Schedule B in relation to that pavement.

5.3. **Pavement degradation fees.** At the time of applying for a Permit, the Company shall pay the Municipality the pavement degradation fees set out in Schedule B based on the age and area of the pavement to be broken by the Company, as estimated by the Municipality. Once the Work has been completed, the Parties shall determine the actual area of pavement that was disturbed or broken by the Company and the final amount owed by or to the Company.

5.4. **Temporary repair.** Where weather limitations or other external conditions beyond the control of the Company do not permit it to complete a final repair to the ROW within the expected period of time, the Company may complete a temporary repair to the ROW; provided that, subject to Section 5.6, the Company replaces the temporary repair with a final repair within a reasonable period of time. All repairs to the ROW by the Company shall be performed in accordance with the Municipal Guidelines and to the satisfaction of the Municipality.

If a temporary repair gives rise to an unsafe condition, then this shall be deemed to
constitute an Emergency and the provisions of Section 4.7 shall apply.

5.5. **Warranty for repairs.** The Company warrants its temporary repair, to the satisfaction of the Municipality until such time as the final repair is completed by the Company, or, where the Municipality is performing the final repair, for a period of two (2) years or until such time as the final repair is completed by the Municipality, whichever is earlier. The Company shall warrant its final repairs for a period of three (3) years from the date of their completion.

5.6. **Repairs completed by Municipality.** Where:

(a) the Company fails to complete a temporary repair to the satisfaction of the Municipality within seventy-two (72) hours of being notified in writing by the Municipality, or such other period as may be agreed to by the Parties; or

(b) the Company and the Municipality agree that the Municipality should perform the repair,

then the Municipality may effect such work necessary to perform the repair and the Company shall pay the Municipality’s Costs of performing the repair.

5.7. **Replacement of damaged trees.** Where any trees are damaged as a result of any Work, the Company shall pay the Municipality for the costs to rehabilitate the trees or, where the trees have suffered irreparable damage, replace the trees to the satisfaction of the Municipality or compensate the Municipality for the value of the trees.

6. **LOCATING FACILITIES IN ROWs**

6.1. **Locates.** The Company agrees that it shall, at its own cost, record and maintain adequate records of the locations of its Equipment. Each Party shall, at its own cost and at the request of the other Party (or its contractors or authorized agents), physically locate its respective facilities by marking the ROW using paint, staking or other suitable identification method (“Locates”), under the following circumstances:

(a) in the event of an Emergency, within two hours of receiving the request or as soon as practicably possible, following which the requesting Party will ensure that it has a representative on site (or alternatively, provide a contact number for its representative) to ensure that the area for the Locates is properly identified; and

(b) in all other circumstances, within a time reasonably agreed upon by the Parties.

6.2. **Provision of Mark-ups.** The Parties agree to respond within fifteen (15) Business days to
any request from the other Party for a mark-up of municipal infrastructure or Equipment design drawings showing the location of any portion of the municipal infrastructure or Equipment, as the case may be, located within the portion of the ROWs shown on the plans (the “Mark-ups”), and shall provide such accurate and detailed information as may be reasonably required by the requesting Party.

6.3. **Inaccurate Locates.** Where the Company’s Locates do not accurately correspond with either the Mark-ups or physical location of the Equipment, and as a result, the Municipality is unable to install its facilities within the affected ROWs in the manner it expected based on the Locates provided by the Company (the “Error”), the following shall apply:

   (a) the Municipality will notify the Company of the Error, following which the Company shall, in consultation with the Municipality, attempt to resolve the Error.

   (b) if the Company is unable to resolve the Error in a reasonable time commensurate with the situation and to the Municipal Engineer’s satisfaction, then the Company shall pay the Municipality’s Costs as a direct result of the Error including the Municipality’s Costs of remedying the Error in such manner as the Municipality shall determine appropriate.

7. **RELOCATION OF EQUIPMENT**

7.1. **General.** Where the Municipality requires and requests the Company to relocate its Equipment for *bona fide* municipal purposes, the Municipality shall notify the Company in writing and, subject to Section 7.3, the Company shall, within ninety (90) days thereafter or such other time as agreed to by the Parties having regard to the schedules of the Parties and the nature of the relocation required, perform the relocation and any other required and associated Work.

7.2. **Municipality’s efforts.** The Municipality will make good faith efforts to provide alternative routes for the Equipment affected by the relocation to ensure uninterrupted service to the Company’s customers. Once the Company has provided the Municipality with all information the Municipality requires to enable it to process a Permit application, the Municipality shall provide, on a timely basis, all Permits required to allow the Company to relocate the Equipment.

7.3. **Reimbursement by Municipality for the Company’s Relocation Costs.** The Municipality shall reimburse the Company for all or part of its reasonable and verifiable costs of completing a relocation requested by the Municipality (the “Relocation Costs”) based upon the principles, methodologies and procedures set out in Schedule C.

7.4. **Discontinuance of ROW.** Where, in the opinion of the Municipality, a ROW (or any portion thereof) in which Equipment is located is no longer required for use by the Municipality as such, the Municipality may cause such ROW to be discontinued, provided
that:

(a) if the Municipality owns the land upon which the ROW is located and does not require the Company to relocate the Equipment, it will, prior to Council approval or conveyance of the ROW, cause an easement to be registered against the property in favour of the Company;

(b) if the Municipality owns the land upon which the ROW is located and does require the Company to relocate the Equipment, the Parties will, prior to Council approval or conveyance of the ROW, affect the relocation of the Equipment; and

(c) in all cases, the Municipality shall reimburse the Company for 100% of the applicable Relocation Costs.

7.5. **Relocation requests of Third Parties.** The relocation of Equipment that is requested by a Third Party shall be at the discretion of the Company. In such circumstances:

(a) unless otherwise agreed to by the Municipality, the Municipality shall not be responsible for the Company’s Relocation Costs;

(b) the Company may charge its Relocation Costs to the Third Party; and

(c) any such relocation under this section shall be subject to obtaining all applicable Permits in accordance with this Agreement.

7.6. **Relocation performed by Municipality.** If the Company fails to complete the relocation in accordance with Section 7.1, the Municipality may, at its option, complete such relocation and the Company shall pay the Municipality’s Costs of the relocation. In such a case the Municipality will not reimburse the Company pursuant to Section 7.3.

8. **FEES AND OTHER CHARGES**

8.1. **General.** The Company covenants and agrees to pay to the Municipality the fees, charges and Municipality’s Costs in accordance with this Agreement, including the fees and charges set out in Schedule B.

8.2. **Invoices.** Unless expressly provided elsewhere in this Agreement, where there are any payments to be made under this Agreement, the Party requesting payment shall first send a written invoice to the other Party, setting out in detail all amounts owing, including any applicable provincial and federal taxes and interest payable on prior overdue invoices, and the payment terms. The Parties agree that all payments shall be made in full by no later than sixty (60) days after the date of the invoice was received.

8.3. **Payment of taxes.** The Company shall pay, and shall expressly indemnify and hold the Municipality harmless from, all taxes lawfully imposed now or in the future by the Municipality or all taxes, rates, duties, levies or fees lawfully imposed now or in future by
any regional, provincial, federal, parliamentary or other governmental body, corporate authority, agency or commission (including, without limitation, school boards and utility commissions) but excluding the Municipality, that are attributable to the Company’s use of the ROW.

9. **REGULATORY CHANGE**

9.1 **Agreement may be re-negotiated.** If, at any time subsequent to the Effective Date of this Agreement, the provincial or federal governments or a regulatory authority acting within its jurisdiction (including the CRTC) enacts or repeals any legislation or regulation, or orders, directs or mandates anything which affects the subject matter of this Agreement (the “Regulatory Change”), then either Party may notify the other of its intention to renegotiate the terms of this Agreement based on the Regulatory Change and, within thirty (30) days thereafter, the Parties shall enter into good faith negotiations to amend this Agreement or enter into a new agreement to reflect the Regulatory Change.

9.2 If Parties are unable to come to terms.

(a) If the Parties are unable to amend this Agreement or enter into a new agreement pursuant to Section 9.1, then either Party may, with thirty (30) days prior written notice to the other Party, refer the matter to the CRTC or for arbitration for resolution.

(b) Subject to this right to refer the matter, if the Parties are unable to amend this Agreement or enter into a new agreement with thirty (30) days from the date of the original notice, either Party may terminate this Agreement immediately upon written notice to the other Party.

10. **TERM AND TERMINATION**

10.1 **Initial term and renewal.** This Agreement shall have an initial term of five (5) years commencing on the Effective Date and shall be renewed automatically for successive one (1) year terms unless:

(a) this Agreement is terminated by either Party in accordance with this Agreement;

(b) a Party delivers initial notice of non-renewal to the other Party at least ninety (90) days prior to the expiration of the then current term; or

(c) this Agreement is replaced by a New Agreement (as defined below) between the Parties.

10.2 **Termination by either Party.** Either Party may terminate this Agreement without further obligation to the other Party, upon providing at least twenty-four (24) hours’ notice in the event of a material breach of this Agreement by the other Party after notice thereof and
failure of the other Party to remedy or cure the breach within thirty (30) days of receipt of the notice. If, however, in the view of the non-breaching Party, it is not possible to remedy or cure the breach within such thirty (30) day period, then the breaching Party shall commence to remedy or cure the breach within such thirty (30) day period and shall complete the remedy or cure within the time period stipulated in writing by the non-breaching Party.

10.3. **Termination by Municipality.** The Municipality may terminate this Agreement by providing the Company with at least twenty-four (24) hours’ written notice in the event that:

(a) the Company becomes insolvent, makes an assignment for the benefit of its creditors, has a liquidator, receiver or trustee in bankruptcy appointed for it or becomes voluntarily subject as a debtor to the provisions of the *Companies’ Creditors Arrangement Act* or the *Bankruptcy and Insolvency Act*;

(b) the Company assigns or transfers this Agreement or any part thereof other than in accordance with Section 17.8; or

(c) the Company ceases to be eligible to operate as a Carrier.

10.4. **Obligations and rights upon termination or expiry of Agreement.** Notwithstanding any other provision of this Agreement, if this Agreement is terminated (other than in accordance with Sections 10.2 and 10.3) or expires without renewal, then, subject to the Company’s rights to use the ROWs pursuant to the Telecom Act and, unless the Company advises the Municipality in writing that it no longer requires the use of the Equipment:

(a) the terms and conditions of this Agreement shall remain in full force and effect until a new municipal access agreement (a “New Agreement”) is executed by the Parties; and

(b) the Parties shall enter into meaningful and good faith negotiations to execute a New Agreement and, if, after six (6) months following the expiry of this Agreement, the Parties are unable to execute a New Agreement, then either Party may apply to the CRTC to establish the terms and conditions of the New Agreement.

10.5. **Removing abandoned Equipment.** Where the Company advises the Municipality in writing that it no longer requires the use of any Equipment, the Company shall, at the Municipality’s request and within a reasonable period of time as agreed to by the Parties, act as follows at the Company’s sole cost and expense:

(a) remove the abandoned Equipment that is above ground;

(b) subject to (c) immediately below, make safe any underground vaults, manholes and any other underground structures that are not occupied or used by a Third Party,
Abandoned Underground Structures”;
